Subject: Microsoft Settlement

I do not support the proposed settlement between the US government and nine of the original eighteen states. It does not re-kindle competition in the computer industry, nor does it make reparations for their proven criminal acts.

I also do not think that the government should be involved in the decision making within private organizations, hence the three man panel would be against my political beliefs.

Thank you for taking the time to listen.

Sincerely,
"Bubby" Ullman
